

Introduction

Shining VD 16 Car Charger is a very thoughtful car charger for car users. With its embedded car battery voltage level indicator, car users can always grasp the realities of the situation. It is featured with two USB ports with max output current 3.1A that can charge two devices simultaneously. One of its USB ports is the latest **type-C** port which is an ideal charging tool for 3C enthusiasts. Besides, its wide DC 12-24V input range design is compatible for all vehicles. No doubt, **Shining VD 16 Car Charger** is car drivers' best choice .

Features

- Smart car battery voltage level indicator, the first one world widely:
 - Showing blue light: car battery level above or equal 11.5V
 - Showing red light: car battery level under 11.5V
- Dual USB ports (USB*1 & Type-C*1) for multiple devices
- Fast charging, total output: 5V/3.1A
- Wide DC 12-24V input range for all vehicles

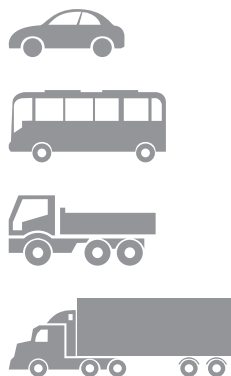

Product Overview

Time Saving by Fast Charging Design

Built with max 3.1A output current

Workable in All Vehicles

Wide DC 12-24V input range

Smart Battery Voltage Level Indicator

Allowed car users grasping the realities of the situation

Light BLUE

Light RED

Battery Level
≥ 11.5 V

Battery Level
< 11.5 V

2 Kinds of USB Ports for Multiple Devices

Featured with a normal USB and a Type-C USB ports

Specifications

Model	FSP016-OPRN1
Input Voltage Range	DC 12-24V
Output Current	3.1A (Max)
Output Connector	2 (USB x 1, Type-C x 1)
Efficiency	
No Load Power	<0.1 W
Consumption	
Operating Temperature	
Warranty	1 Years
Protection	Short Circuit Protection Constant Current Protection

Shining VD 16 Car Charger Series

16W(Max Output)

Package Information

Model Name	FSP016-OPRN1
Color	Silver
EAN Code	4711140480121
UPC Code	845685008718
Shipping Dimensions (L×W×H)	105×132×83 mm
Shipping Weight	g
Unboxed Product Weight	g
Master Pack Dimension (L×W×H)	× × mm
Master Pack Quantity	retail boxes per master package
Master Pack Weight	kg
Pallet Quantity (Per Layer)	(retail boxes × master boxes)
Country of Origin	China
