

Sculpt Ergonomic Desktop

- Split keyset design
- Cushioned palm rest
- Domed keyboard design

Advanced Ergonomic Design

The Sculpt Ergonomic Desktop has a uniquely modern design and an amazingly comfortable feel. It's built on advanced ergonomic principles, incorporating a split keyboard layout to help position the wrists and forearms in a natural, relaxed position, a cushioned palm rest to provide wrist support, and a domed keyboard shape to reduce wrist pronation. The mouse is also designed to maximize wrist comfort with its unique ergonomic shape. And it also includes features like the Windows button which gives you convenient, one-touch access to the Windows 8 Start screen, so you'll be able to stay comfortable and productive all day long.

Sculpt Ergonomic Desktop

Features

Keyboard

Split keyset design helps to position wrists and forearms in a natural, relaxed position

Cushioned palm rest provides support and promotes a neutral wrist position

Domed keyboard design positions wrists at a natural, relaxed angle

Separate number pad provides greater flexibility for workspace setup

Natural Arc key layout mimics the curved shape of the finger tips

Reverse tilt angles the keyboard to promote a straight neutral wrist position

Mouse

The shape of the mouse is designed to maximize wrist comfort

Thumb scoop helps to maintain the correct ergonomic hand and wrist position

Windows button provides one-touch access to the Start screen

Back button for faster navigation

4-way scroll wheel for navigating up, down, left and right
