## Wireless Mouse M215

The comfortable, intuitive control you want for your notebook

- More comfort than a notebook touchpad
- Natural, intuitive control of your notebook
- Simple setup
- Plug-and-forget nano-receiver
- Months of use from one battery

Logitech® Wireless Mouse M215 gives you the comfortable, intuitive control you want for your notebook. Place your wireless mouse wherever it feels best and forget about performing tricky finger manoeuvres in a fixed location like you do with a touchpad. Instead, you'll enjoy smooth, precise tracking, easy text selection and effortless scrolling. There's no complicated setup or software to install. The nano-receiver is so small you can plug it in once and forget it. The Logitech Advanced 2.4 GHz wireless connection is reliable and powerful. And the included Duracell® AA and intelligent battery management features give you enough power to go for months before your first battery change.
