

N300 Wi-Fi 4 USB Adapter

AN3U

Key Features

- Quick and affordable solution to add wireless connectivity to your computer
- 802.11n speed up to 300 Mbps
- Enhanced Wi-Fi security with the latest WPA3™ authentication and encryption
- Compact design makes the adapter easy to carry around and discreet when inserted into a USB port
- Driver support for Windows 11/10 operating systems

User Benefits

Wireless Connectivity

Wi-Fi 4 introduces MIMO to transmit multiple spatial streams simultaneously for increased performance and range.

Economical

Deliver excellent performance at a affordable low price.

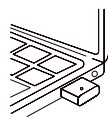

WPA3™ Encryption

Offers the latest Wi-Fi security for more protection and safer connections

Backwards Compatible

Fully compatible with any Wi-Fi routers and gateways that support 802.11b/g/n

Compact Design

Simply plug it in and forget it, saving space effortlessly

Technical Specifications

General	
Wireless Encryption	WPA2™ WPA3™
Standards	IEEE 802.11b/g/n
Antenna Type	2 x Internal antenna
Requirements	
Operating System	Windows 11/10, 64 and 32 bit
Interface ²	USB 2.0 port
Physical	
Dimensions	29.65 x 17.7 x 9.7 mm
Weight	4.16 g
Power	- Power consumption: - Standby mode: 220mA - Operating mode: 330mA - Operating voltage: 5V DC+-10%
Operating Temperature	0 to 40°C
Storage Temperature	-20 to 75°C
Operating Humidity	10% to 90% non-condensing
Storage Humidity	5% to 95% non-condensing
Certifications	FCC Class B CE IC

1. Maximum wireless signal rate derived from IEEE standard 802.11n/g/b specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors may adversely affect wireless signal range.

2. Using a USB 1.1 will affect device performance. USB2.0 port or higher recommended.

3. Installation CD is only available in certain regions.
