

Product Highlights

Connect your peripherals

Three USB 3.0 ports for connecting peripheral devices to your computer.

Power Delivery 3.0 standard

USB Type-C port for connecting PD 3.0 charger, allowing to deliver power to your laptop via connected DUB-2333 docking station.

HDMI port

HDMI port supporting up to 4K resolution for connecting monitor.

DUB-2333

USB-C Mini Docking Station with 3xUSB 3.0, USB-C/PD 3.0 and HDMI

Features

Connectivity

- Three USB 3.0 Type-A ports
- Backwards compatible with USB 2.0 and USB 1.1
- USB Type-C/PD 3.0 port
- HDMI port

Easy to Use

- Plug-and-Play support
- Compact design
- Works on Windows and macOS computers

The DUB-2333 docking station allows you to enhance the functionality of your laptop or desktop computer equipped with USB Type-C port. USB 3.0 ports allow to connect up to three peripheral USB devices to the DUB-2333 while HDMI port¹ supporting up to 4K resolution is used for connecting monitor. USB Type-C port is intended for connecting PD 3.0 charger, allowing to deliver not only data, but also power to your laptop via connected DUB-2333 docking station². This means you can charge your laptop while also connect additional devices like monitors, digital and web cameras, card readers, hard drives, mice, keyboards, printers, scanners, and other peripheral devices.

Add Three USB 3.0 Ports to Your Computer

With the DUB-2333 docking station, you can conveniently add three USB 3.0 ports and connect peripheral devices to your computer. USB 3.0 technology supports data rates of up to 5 Gbps.

PD 3.0 Standard

USB Type-C port is intended for connecting PD 3.0 charger, allowing to deliver not only data, but also power to your laptop via connected DUB-2333 docking station².

Plug-and-Play Support

Simply connect the DUB-2333 to your computer. It's that easy - no drivers or software installation is required.
