

ELECTRIC MASTER II Deluxe

Motorized screen for ceiling or wall mounting. Professional quality for highest demands. The Click-Mounting set allows for fast and easy installation on the wall or on the ceiling. An IR-receiver is integrated in the elegant, slim aluminium housing. A handheld remote control is included. An additional, wired IR-receiver is provided for inconcealed installation of the screen housing.

The solid housing, the warp resistant roller and the heavy bar insuring the perfect tension of the screen.

The very fast and quiet Somfy-Motor and adjustable limit switches make the ElectricMaster II Deluxe the ideal choice for most applications. The black rear surfaces and the black masking borders guarantee best contrast and full reflection of projection light. All screen surfaces are seamless.

Features

- Motorized screen for wall- or ceiling mounting
- IR-receiver included in housing; IR-remote control included
- Additional, wired IR-receiver included for installations, where the screen's housing is out of the line of sight of the IR-remote.
- Elegant square bar housing, white coloured; aluminium
- Easy and quick installation
- Adapters for easy Mounting
