

Logitech®

# Squeezebox™ Boom

Plug it in. Turn it on. Rock the house.

- Integrated, all-digital amplifier and breakthrough acoustic design
- SqueezeNetwork™ online music service
- Compact, all-in-one design
- True 802.11g networking
- 7-day alarm

From the Squeezebox family of products comes Logitech® Squeezebox™ Boom: the all-in-one network music player that combines award-winning Squeezebox functionality with an integrated amplifier and speakers to deliver your digital music to any room in your home. All in a compact size. Just plug it in, follow the network configuration wizard and enjoy the music and content you love, with crystal-clear sound. Features include true 802.11g wireless networking, auto-dimming display, 7-day alarm clock with backup power and remote control. Supports most digital music formats.

## SYSTEM REQUIREMENTS

For access to music on your computer, use SqueezeCenter with the minimum system requirements:

- 256 MB RAM and 80 MB available hard disk space

With any of the following operating systems:

- Windows® XP/2000/NT, Windows Vista®, 733 MHz Pentium
- Macintosh OSX 10.3.5 or later
- Linux/BSD/Solaris (Perl 5.8.3 or later)

Ethernet or 802.11b/g wireless home network  
Broadband Internet connection required for Internet radio and music services

# Logitech® Squeezebox™ Boom
