# Dell 25 Gaming Monitor | S2522HG

## **Your front row seat to high-speed thrills**

From its exterior styling and interior architecture to the best-in-class technology, Dell is proud of our deep heritage in pushing the boundaries in design, innovation and functionality. Our Dell 25 Gaming monitor is built to deliver swift and responsive gameplay, versatility and highly customisable features to deliver an exceptional and immersive gaming experience to mainstream and casual gamers.

## **Smooth & stutter-free**

Enjoy seamless, stutter-free performance during high-speed action thanks to NVIDIA® G-SYNC® Compatible Certification and AMD FreeSync™ Premium Technology.

## **Rapid responsiveness**

An impressively quick 240Hz refresh rate allows fast-moving visuals to be seen with remarkable clarity so you can react quicker. Incredibly fast 1ms GtG (Gray to Gray) response time eliminates motion blur and ensures a consistently smooth performance during high-speed action.

## **Stunning colour accuracy**

Fast IPS technology delivers incredible image clarity and consistent colours from every angle with support for 99% sRGB colour coverage.

## **A brand to rely on**

We take pride in our unyielding commitment to quality and the utmost satisfaction of our customers. Dell Premium Panel Exchange allows a free panel replacement during the Limited Hardware Warranty period even if only one bright pixel is found. Minimise downtime with 3-year Advanced Exchange Service.

# Feature Overview

## Product Details:

- An impressively quick 240Hz refresh rate allows fast-moving visuals to be seen with incredible clarity so you can react quicker.
- Enjoy seamless performance during high-speed action thanks to an incredibly fast 1ms GtG (Grey to Grey) response time that eliminates motion blur.
- NVIDIA® G-SYNC® Compatible Certification and AMD FreeSync™ Premium Technology ensures that graphic distortions like screen tearing and stuttering are minimised for sharp, seamless gameplay, The S2522HG also features support for gaming console Variable Refresh Rate (VRR).
- Fast IPS technology delivers incredible image clarity and consistent colours from every angle with support for 99% sRGB colour coverage.
- The 24.5-inch FHD display provides an excellent pixel-per-inch ration for remarkably sharp visuals during relentless high-speed gaming.
- Game with minimal distractions and a larger surface area thanks to a 3-sided ultrathin bezel.
- In-game advantage: 3 user-defined profiles to fit the variety of games played in addition to 4 pre-set modes and game features such as Timer, Frame Rate Counter, Dark Stabiliser
- Easy height, pivot, tilt, and swivel adjustability allow you game in comfort for extended periods.
- Dell Premium Panel Exchange allows a free panel replacement during the Limited Hardware Warranty\* period even if only one bright pixel is found.

Availability: Starting May 7, 2021 (China), May 27 (NA/EMEA), June 22 (APJ)  
Starting price: USD \$399.99

# Feature Overview

---

## Evolved design. Enhanced gaming.

- The new distinct, gaming-centric design favours a bolder look and gaming features that offer both functional and aesthetic benefits for gamers.
- Uniquely-designed vents on the back of the monitor are engineered for enhanced heat dispersal.
- Controlling the brightness using a direct current enables a flicker-free screen, giving you a more comfortable viewing experience. Additionally, the ComfortView feature reduces harmful blue light emissions to help reduce eye fatigue for your next marathon gaming session.

Height adjustment up to 130 mm | Tilt (-5° to 21°) | Pivot (-90° to 90°) | Swivel (-45° to 45°)

### Fully adjustable & wide connectivity:

- Game in comfort for extended periods thanks to a new slim, tapered stand with easy height, pivot, tilt, and swivel adjustability.

### Gaming-centric On-Screen Display (OSD)

- Specific gaming OSD (onscreen display) design keeps your user experience in the gaming theme.
- Customisable and pre-set game modes (Timer, FPS Counter, Display Alignment) found on the monitor's OSD gets you optimised game visuals without having to manually adjust screen settings every time you play your game
