Dell UltraSharp 40 Curved WUHD Monitor – U4021QW
Reviewers' Guide

DELLTechnologies

Give your visuals power

Redefine productivity on the award winning Dell UltraSharp 40 Curved WUHD Monitor[1], the **world's 1st 40" ultrawide curved WUHD monitor**[2].

This expansive monitor delivers spectacular visuals in 5,120 X 2,160 resolution and true-to-life color, while reducing harmful blue light emissions with built-in ComfortView Plus – making this ideal for both content creators and data analysts.

Packed with productivity enhancing features, it includes built-in KVM with Auto KVM, Picture-by-Picture and Picture-in-Picture. Extensive connectivity such as Thunderbolt™ 3, RJ45 and super speed USB 10Gbps, enable up to 90W power charging, wired Ethernet connection and fast data transfers. Quick Access front ports allow easy connections and charging of peripherals.

This impressive monitor is ENERGY STAR® and TCO certified, and registered EPEAT® Gold.

Elegant cable management conceals cables within the riser for a clutter free desk

ENERGY STAR® and registered **EPEAT® Gold**

Multitask efficiently with Picture-by-Picture, Picture-in-Picture, KVM (with Auto KVM)

D∕∕LL Technologies

Redefine productivity

Stay on task on the world's first 40" curved ultrawide WUHD 5K2K monitor[2]. With 35% more onscreen space than a 32" 4K 16:9 screen, users have more space to view all their work at once.

Fine details are displayed in WUHD 5120 x 2160 resolution and 140 ppi pixel density. And, the 2500R curved screen creates a wider field of view, minimizes reflection and offers near uniform visual focus for a comfortable panoramic view.

Integrated dual 9W speakers deliver great sound for an immersive visual and auditory experience.

DELLTechnologies

Consistent, accurate color

See stunning visuals in 1.07 billion colors and a wide color coverage - 100% sRGB, 100% Rec. 709 and 98% DCI-P3. DCI-P3 offers nearly 25% more coverage than sRGB and is fast becoming the color standard for creating and viewing content.

Colors are accurate right out of the box with 100% sRGB at Delta-E < 2 color calibration. Plus, In-Plane Switching (IPS) technology enables consistent color and picture quality across a wide viewing 178° / 178° viewing angle.

Designed with wellness in mind, this monitor features ComfortView Plus, an always-on built-in low blue light screen that reduces harmful blue light emissions without compromising color performance (TÜV Rheinland certified – Low Blue Light Hardware Solution and Flicker Free; ID 1111229081).

DELLTechnologies

Productivity Hub

With extensive connectivity including Thunderbolt™ 3, RJ45 and super speed USB 10Gbps[3], this monitor serves as a productivity hub that delivers Ethernet[4], up to 90W of power delivery[5] and fast data transfers — all in a clutter-free setup.

Thunderbolt™ 3 delivers speeds of up to 40Gbps[3]

MAC Address pass-through[5], PXE Boot, and Wake-on-LAN are conveniently built in.

Easily connect to a variety of devices with Thunderbolt™ 3, DP1.4, HDMI and super speed USB 10Gbps. Quick access front ports enable fast connection to peripherals, such as storage devices and mobile phones, with up to 15W charging capability (via USB-C).

[3] Data transfer speeds may vary among different USB devices, system configurations, and other factors.
[4] Wired Ethernet via RJ45 port   [5] Up to 90W power deliver via Thunderbolt™ 3
[6] MAC Address pass-through functionality is tested to work with most Dell PC systems. Functionality on non-Dell systems may vary.

D&LL Technologies

Multitask efficiently

This monitor comes with built-in KVM (keyboard video and mouse), Picture-by-Picture (PBP) and Picture-in-Picture, enabling users to work efficiently on content from 2 different PCs at the same time.

With the built-in KVM feature, users can conveniently use a single keyboard and mouse to toggle between and edit content from both two PCs.

When a user connects two PCs to the monitor, the intelligent Auto KVM feature automatically detects the latest connected PC and seamlessly switches controls over.

D∅LL Technologies

View content from two different PCs, at once

Picture-in-Picture (PIP) – enables users to work on an application on one PC while receiving content, displayed in an inset window, from a second PC.

Picture-by-Picture (PBP) – users can view content from two PC sources side-by-side on a single monitor screen, similar to a dual monitor set up.

DELLTechnologies

Stylish, functional design

Designed with purpose

Crafted with a premium platinum silver finish, this stylish monitor features an elegant cable management system that hides cords within the monitor riser.

Joystick control

Navigate the onscreen menu and adjust settings with the easy-to-use joystick control.

Adjusts to your comfort

Tilt, swivel, and adjust the height of the monitor to a maximum of 120mm for a comfortable working experience.

DELLTechnologies

Enhanced productivity. Steadfast reliability.

Dell Display Manager

Dell Display Manager's Easy Arrange allow quick tiling of applications side by side across one or more connected screens for multitasking efficiency.

Asset management reports allow IT managers to quickly capture and track monitor information as well as configure multiple monitors at once through a single setup. Learn more at dell.com/ddm

Green thinking for today and tomorrow

This monitor meets the latest regulatory and environmental standards such as EnergyStar® and is EPEAT Gold®[8] and TCO Certified.

To reduce manufacturing impact on the environment, it is shipped in Styrofoam-free packaging with paper based material made of at least 75% recycled cardboard.

Save energy with PowerNap[9], a feature that dims or puts the monitor to sleep when it's not in use.

[8] EPEAT registered where applicable. EPEAT registration varies by country. See www.epeat.net for registration status by country.
[9] Enabled by Dell Display Manager.
