See the [Dell Commercial Docks Family Brochure](#) for more information on our entire docking portfolio.

- * These notebooks have higher power requirements, so the Dell Dock WD19 / WD19S with 90W power delivery, Dell Universal Dock UD22 or Dell Dual Charge Dock HD22Q is not recommended. If these docks are used, the notebook needs to be plugged in externally for optimal performance. For the best experience with these notebooks, choose from Dell Dock WD19/WD19S (180W), Dell Performance Dock WD19DC / WD19DCS, Dell Thunderbolt Dock WD19TB/WD19TBS or Dell Thunderbolt 4 Dock WD22TB4 based on the notebook's power requirement, so you no longer need an additional power adapter.
- 1 These notebooks should be connected to the Dell Performance Dock WD19DC / WD19DCS via a single USB-C connector. The functionality will be reduced to single USB-C, same as the Dell Dock WD19 / WD19S. Connecting both USB-C cables simultaneously may result in unexpected behavior
 - 2 Precision 7000 series mobile workstations require more power than 130W, so when docked with the Dell Dock WD19 / WD19S, Dell Thunderbolt Dock WD19TB / WD19TBS or Dell Thunderbolt 4 Dock WD22TB4, the workstations need to be plugged in externally for optimal operation. For the best experience with Precision 7000 series mobile workstations, choose the Dell Performance Dock WD19DC / WD19DCS. The WD19DC / WD19DCS dock comes with a dual USB-C connector that provides up to 210W of power delivery, so you no longer need an additional power adapter.
 - 3 Older Thunderbolt systems have partial compatibility with Dell Thunderbolt 4 Dock WD22TB4. Only one of the ports on the Thunderbolt module will function as Thunderbolt, the other will only work as USB/DP.
 - 4 Latitude Chromebook Enterprise notebooks are USB-C systems and the recommended dock is the Dell Dock WD19 / WD19S with 90W power delivery. The Dell Thunderbolt Dock WD19TB / WD19TBS, Dell Thunderbolt 4 Dock WD22TB4 and Dell Performance Dock WD19DC / WD19DCS are supported but functionality is reduced to single USB-C, the same as the Dell Dock WD19 / WD19S.

Note: When connected to non-Thunderbolt systems, the Dell Thunderbolt Dock WD19TB / WD19TBS and Dell Thunderbolt 4 Dock WD22TB4 will not retain its Thunderbolt functionality.
